TIPS

- **Promote the Expo**

Create pre-event communications to invite current and potential customers to visit you at the Expo on April 4. (Email, Facebook, Twitter, Direct Mail)

- **Plan Your Exhibit**

Bring items such as giveaways, lights, extension cords, tape, printed materials, business name signs. Plan how you will attract people to visit your booth. The more you plan, the more successful your exhibit will be. *It will be noticed.*

- **Work Your Booth**

Is your booth customer friendly? What kind of image do you want to present? Are you standing? Did you bring the right information and enough? Last year, over 500 individuals visited the Expo. Is staff prepared to answer questions? Remember there are two types of people attending: business representatives and the public.
